

Advancing The Windfall Lake Gold Opportunity

March 2021

“You find gold where there is gold”

Durango Resources is currently exploring for gold in one of the most prolific gold mining camps in Canada, the Windfall Lake region. Their flagship project, Windfall Lake, spans 9,500 hectares and is neighbored by gold projects that have

proven and inferred gold resources of over 7.2 million ounces. Durango is currently drilling the property and is confident that their stake shares similar structural geology to its neighbors and that finding gold is only a matter of time.

Corporate Snapshot

Top tier mining & exploration jurisdiction

Comprehensive exploration strategy underway – near term results expected

Financially healthy, no long-term debt. 100% ownership of all properties.

Strategic land position – positioned as a potential takeover target

Committed & experienced management team

Favorable geology – neighboring operations have proven gold resources

Superior infrastructure and accessibility

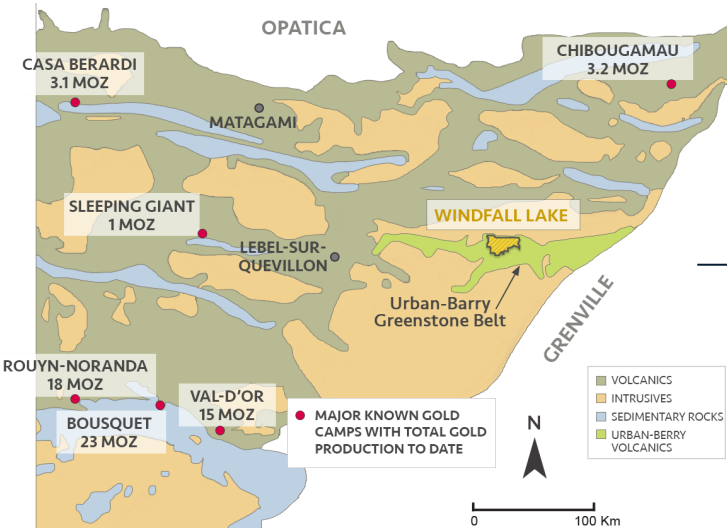

Additional 3 projects provide significant optionality and diversity to their gold portfolio

Windfall Camp Is Famous For Producing High-grade Gold Projects. Durango Is Well Positioned To Take Its Place Among Them

Project	Company	Category	Tonnes	Grade (g/t)	Gold (oz)
Windfall Lake	Osisko Mining	Indicated	4,127,000	9.10	1,206,000
Windfall Lake	Osisko Mining	Inferred	14,532,000	8.40	3,938,000
Barry Pit	Bonterra Resources	Indicated	2,052,000	5.84	385,000
Barry Pit	Bonterra Resources	Inferred	2,740,000	5.14	453,000
Gladiator	Bonterra Resources	Indicated	743,000	8.50	202,000
Gladiator	Bonterra Resources	Inferred	3,065,000	9.10	897,000
Lac Rouleau	Osisko Mining	Historical	544,000	7.20	125,925

Building Shareholder Value Through Focused Exploration

Additional Projects Add Optionality To Durango Resources – 100% Ownership

Project	Location	Commodity	Phase
Discovery	Québec	Gold	Exploration
Mayner's Fortune	British Columbia	Limestone	Exploration / Pre-Production
NMX East	Québec	Critical Metals – Cesium, Lithium, Tantalum, Rubium	Exploration
